## Professional Summary

---

With 4 years of experience as a full-stack developer, I specialize in creating user-friendly web apps. I'm skilled in various programming languages and platforms, and keep myself up-to-date in new technologies. My ability to learn quickly and adapt to new environments allows me to thrive in dynamic personality.

## Technical Skills

---

**Programming Language:** C#, C++, Python

**Frontend Technologies:** React, JavaScript, JQuery, HTML/CSS, SCSS, Bootstrap, Tailwind CSS, Typescript

**Backend Technologies:** .NET, Web APIs, .NET MVC, PHP, Laravel, API integrations

**Database:** MySQL, SQL Server management

**Tools:** JIRA, Bitbucket, Github, Jenkins, Azure, Wordpress

## Work History

---

### Front-end Developer (Part-time)

2024/04 – present

*Moana Digital Solutions*

Auckland, New Zealand

- Developing modern UI from scratch for the AI SaaS product.
- Chat gpt API integration with the website.
- Responsive UI development.
- Consulting on the web development for the front-end.
- Stack used vue.js, PHP (Laravel), Tailwind CSS, HTML, SCSS, Github.

### Software Developer

2022/05 – 2023/04 | India

*Saeloun*

- Worked on payment mobile app using stack React-native, internal projects of eCommerce website and time management web app using stack on ASP.Net, React JS and SQL server management.
- Used Github version control software for code consistency, agile methodology for tracking task status on Jira platform.
- Trained and mentor junior developers. Taught skills in React JS, responsiveness and code optimization.

### Software Engineer

2021/06 – 2022/05 | India

*Tarento Group*

- Skilled in creating high-performance, reusable code by applying SOLID principles in C# and establish connection with SQL server management using entity framework in .net.
- Worked on e-learning platform web app from page development in ReactJS, then integrating it with API and deploy CI/CD pipeline on Jenkins.
- Created API for user profile page in C# .NET like saving data, updating and retrieving required data from the database.
- Attended client meeting with scrum master and participation on discussion about the requirements.

### Software Developer

2019/06 – 2021/04 | India

*Techment Technology*

- Worked on eCommerce Windsor vineyards with technology stack being React JS and CSS. And explore back-end REST API in ASP.NET
- Experience in optimizing page performance and responsive web development strategies. Also explore back-end API in Java. Followed agile methodology
- Develop MydoctorsLive website in WordPress. And done projects in Angular JS. Worked on Jira software.

## Projects

---

### M.Tech Dissertation

*MUSIC RECOMMENDATION SYSTEM BASED ON FACIAL EXPRESSION*

The objective of this project is to design and implement a facial expression-based music recommendation system that accurately detects and provides a list of personalized music.

Builds the full CNN classifier model with appropriate layers for feature extraction and classification.

### Olympics analysis web app

A Streamlit web application for the analysis of olympics dataset. For development, I have used Python and Pandas. For plotting, I have used Seaborn and Plotly libraries.

### EMedicineBack-end

*.Net core Web-API project | Back-end CRUD Operations | SQL Server Management*

### Purchase Online

*React-Redux | eCommerce store using REST APIs.*

### OPJU Alumni Website

*PHP | JavaScript | MySQL*

## Qualification

---

### Master in Technology (Data science & Engineering)

2021/11 – 2023/12 | India

*BITS, Pilani*

CGPA - 7.90

### Bachelor in Technology (Computer Science & Engineering)

2015/06 – 2019/05 | India

*O P Jindal University*

CGPA- 9.19/10

### Higher Secondary Certification (Computer Science)

2013/04 – 2014/05 | Raigarh, India

*O.P Jindal School*

Grade- 88%

## Certificates & Accomplishments

---

### Awarded Best team of the quarter

Tarento Technology

### Awarded quick learner of the month in Business Reading Program

Tarento Technology

### React Js

Basic

### The Complete angular Course

Beginner to Advanced

### Jira Fundamentals Badge

## Personal Skills

---

Client interaction and Communication | Team leader and Team Player | Self-directing working style | Creative & innovative | Willingness to learn | Hard-worker | Ability to learn quickly

## Hobbies & Interests

---

Drawing | Listening Songs | Cooking | Browsing net | Vlog/Video

## Visa Status

---

**Open Work Visa | August, 2026** (No Sponsorship required in future)
